N.A. - Information is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year.

*Inception date 11/30/2014 N.A.¹ Three-year annualized Standard Deviation is not presented because 36 monthly returns are not available.

Balanced ETF Composite contains fully discretionary Balanced ETF commission and bundled fee-paying accounts and, for comparison purposes, is measured against the blended 40% Russell 3000, 10% MSCI EAFE, 48% Bloomberg Barclays U.S. Aggregate Bond, and 2% FTSE 3-month Treasury Bill Indices, as calculated monthly by Horizon. The Balanced ETF strategy seeks to strike a balance between growth and income and consists of both equity and fixed-income exchange-traded funds. Equity exposure typically will be approximately 50% covering a variety of equity size and style categories. The portfolio may hold less than 50% in equities depending on macro market conditions. The fixed-income portion of the portfolio consists of ETFs covering a variety of fixed-income style categories. The Russell 3000 Index is an unmanaged total-return index designed to measure the performance of the largest U.S. companies in terms of market capitalization. The MSCI EAFE Index is an unmanaged total-return index designed to measure the equity performance of developed markets outside of the U.S. and Canada. The Bloomberg Barclays U.S. Aggregate Bond Index is an unmanaged market capitalization-weighted total-return index comprised of U.S.-denominated, investment-grade, fixed-rate, taxable bonds. The FTSE 3-Month Treasury Bill Index is an unmanaged total-return index representative of three-month Treasury bills.

Horizon Investment Services, LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Horizon Investment Services, LLC has been independently verified for the periods September 1, 2000 through December 31, 2018. A copy of the verification report is available upon request.

Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation.

Horizon Investment Services, LLC is registered as an investment adviser with the Securities and Exchange Commission. The firm maintains a complete list of composite descriptions, which is available upon request.

The composite performance returns include all fully discretionary active and terminated commission and bundled fee-paying accounts for the strategy and exclude any accounts with significant client-imposed investment restrictions.

The U.S. Dollar is the currency used to express performance. All composite performance returns include the reinvestment of all income. Gross composite performance returns are asset-weighted total-return figures reduced by fund expenses and brokerage commissions paid or the highest asset-based brokerage fee of 0.20%, applied monthly; which include brokerage commissions and custodial service fees, but do not reflect the payment of management fees. Net composite performance returns are further reduced by the highest applicable management fee of 1.25%, applied monthly. Bundled accounts pay a fee based on a percentage of assets under management which includes all charges for trading costs, portfolio management, custody, and other administrative fees. The annual composite dispersion presented is equal-weighted standard deviation calculated for the accounts in the composite the entire year. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.

The investment management fee schedule for the composite is 1.25% on the first \$2 million, 1.10% on the next \$2 million, 0.95% on the next \$2 million and 0.80% on the remainder. Actual investment advisory fees incurred by clients may vary depending on fee schedule and portfolio size. Management fee schedules are available upon request or may be found in Part 2A of Horizon Investment Services' Form ADV.

The Balanced ETF Composite was created November 30, 2014.

No formula or other device being offered can, in and of itself, be used to determine which funds to buy or sell.

† Number of Funds and Target Weight of funds may be adjusted at any given time, at the portfolio manager's discretion, typically based on fund performance and market conditions.

‡ Estimated 12-Month Yield is based on the sum of a fund's trailing dividend payments over the past year. Weighted Fund Expense excludes Horizon's management fee of 1.25%.

Portfolio Allocations (Asset Class and Market Capitalization) provided by Morningstar. Portfolio cash allocations include portfolio cash holdings and actual fund cash holdings.

The Balanced ETF benchmark was created by HIS with the same investment objective as the Balanced ETF strategy and is comprised of similar holdings, whose weightings roughly correspond to the Balanced ETF strategy.

By investing in a portfolio of ETFs, you will incur the proportionate share of the management and other expenses associated with each ETF. Investing in ETFs involves risks generally associated with investments in a broadly based portfolio of common stocks, including: (1) an active trading market for an ETF's shares may not develop or be maintained; (2) trading of an ETF's shares may be halted if the listing exchange deems such action appropriate; (3) ETF shares may be delisted from the exchange on which they trade, or activation of "circuit breakers" (which are tied to large decreases in stock prices) may halt trading temporarily; (4) losses from trading in secondary markets or from disruptions in the creation/redemption processes of the funds; and (5) funds trading at a premium/discount.

An investment in this strategy involves the risk of loss. Investment return and principal value will fluctuate so that the investment, when redeemed, may be worth more or less than the original investment.
